and are not representative of characteristics of the Trespa products. Trespa's products and samples are produced within the specified colour tolerances and the colours (of production batches) may differ, even if the same colour is used. The viewing angle also influences the colour perception. Metallic panels feature a surface whose colour appears to change based on the direction from which it is viewed. The specified colour stability and colour specifications relate only to the decorative surface of the Trespa products, not to the core material and samples of the Trespa products. Trespa products are delivered ex-works with straight, sawn sides.

Customers and third parties must have a professional adviser inform them about (the suitability of) the Trespa products for all desired applications and about applicable laws and regulations. Trespa does not warrant the above.

The most recent version of the current delivery programme and the Material Properties Datasheet can be found at www.trespa.info. Only the information in the most recent and valid Material Properties Datasheet should be used to select and provide advice regarding Trespa products. Trespa reserves the right to change (the specifications for) its products without prior notice.

Liability

Trespa is not liable (neither contractual nor non-contractual) for any damage arising from or related to the use of this document, except if and to the extent that such damage is the result of wilful misconduct or gross negligence on the part of Trespa and/or its management. The limitation of liability applies to all parties affiliated with Trespa, including but not limited to its officers, directors, employees, affiliated enterprises, suppliers, distributors, agents, and representatives.

General conditions

All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related activities of Trespa are governed by the Trespa General Terms and Conditions of Sale (*Algemene verkoopvoorwaarden Trespa International B.V.*) filed with the Chamber of Commerce and Industry for Noord- en Midden-Limburg in Venlo (NL) on 11 April 2007 under number 24270677, which can be found on and downloaded from the Trespa website, www.trespa.com.

All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related work of Trespa North America, Ltd. are governed by the Trespa General Terms and Conditions of Sale, which can be found on and downloaded from the

www.trespa.com website, www.trespa.com/na. A copy of these general conditions of sale will be provided free of charge on request.

All general terms and conditions other than the conditions mentioned above are dismissed and do not apply, regardless of whether such terms and conditions are referred to on requests for offers, offer confirmations, stationery and/or other documents of the other party, even if Trespa does not expressly object to such terms and conditions.

TRESPA®

A façade's character
is more than just
shapes and lines - it's
in the very materials
themselves.

Variations down to the joints

Use joints to dominate a façade.

Incorporate nature as a continuous display of inspiring beauty.

Nature must take its' course

Combined impact

Even the roughest character has an intrinsic beauty.

Enlightened ideas

Light effects in the joints to give your façade distinctive characteristics that vary with the time of day and night.

Character

Façades with an emotional value

Don't limit your design to the possible. Go beyond...with Trespa Meteon. All building materials display a unique character, glossy, soft, rough, natural. Trespa Meteon external panels let you fully express this emotive power. Combine our panels with wood, metal, glass, concrete and brick, add special joint elements and structures, and you can design façades that are bold... soaring... whimsical... inspiring... daring.

Inspiration comes to life
With a broad range of colours, finishes and tactile effects, Trespa Meteon brings compelling aesthetic and nearly limitless design possibilities to next-generation architectural claddings. Depending on the architectural concept, Trespa Meteon can contribute effectively to energy efficient, healthy building designs with a positive impact on long-term performance and value. Come and be inspired: <http://perspectives.trespa.com>

The designs shown in this brochure are for inspiration only and have not been submitted to specific tests. Actual designs may vary, depending on specific location, regulations and circumstances. Design and fixing systems may influence possible end results. Trespa Meteon is CE marked and fully complies with the EU standard. Always check if the desired design is in accordance with any national and/or local building regulations and specifications.
