and are not representative of characteristics of the Trespa products. Trespa's products and samples are produced within the specified colour tolerances and the colours (of production batches) may differ, even if the same colour is used. The viewing angle also influences the colour perception. Metallic panels feature a surface whose colour appears to change based on the direction from which it is viewed. The specified colour stability and colour specifications relate only to the decorative surface of the Trespa products, not to the core material and samples of the Trespa products. Trespa products are delivered ex-works with straight, sawn sides.

Customers and third parties must have a professional adviser inform them about (the suitability of) the Trespa products for all desired applications and about applicable laws and regulations. Trespa does not warrant the above.

The most recent version of the current delivery programme and the Material Properties Datasheet can be found at www.trespa.info. Only the information in the most recent and valid Material Properties Datasheet should be used to select and provide advice regarding Trespa products. Trespa reserves the right to change (the specifications for) its products without prior notice.

of this document.

TRESPA®

Silence of the wild

Motionless majesty, silent awe. African wild, ageless and exotic. Natural purity in the beautiful environment. Natural woods create timelessness.

Talk of the town

Where nature, buildings and people are intertwined. A colourful avalanche of sound, surface and shape. Natural woods influence the environment.

Sounds of the water

Endless echoes, weathering rock and sand. The surge of sea, the splash of waterfall, the pulse of rain. Natural woods have power, wet or dry.

Crackle of the heat

Yellow sunrise, hot air, red sunset. Power transforming nature, growing and bursting with creation. Natural woods make buildings grow.

Whispers of the wind

Subtle strokes on the senses. The building rustle of forces at work and play. Natural power to change landscapes. Natural woods make changes too.

Character

Every tree tells a story

Great architects create memorable buildings. Greater architecture has character. Nature is the greatest source of inspiration. Trespa offers a stunning Collection of 17 Wood Decors plus 6 Naturals. These combine the warmth and appearance of wood with the durability and quality of the Meteon panel.

Their Character has been inspired by an elevated understanding of Nature. They reflect man's awareness of the natural environment and reinforce the message of using sustainable materials. The collection complements Meteon, itself a sustainable product from renewable resources.

Think Nature. Think Wood. Think Trespa.

> Italgestione, Italy
> Architect: Mosciaro

> The Sphere London, UK
> Architect: Nicholas Burwell Architects

Inspiration comes to life
With a broad range of colours, finishes and tactile effects, Trespa Meteon brings compelling aesthetic and nearly limitless design possibilities to next-generation architectural claddings. Depending on the architectural concept, Trespa Meteon can contribute effectively to energy efficient, healthy building designs with a positive impact on long-term performance and value. Come and be inspired: <http://perspectives.trespa.com>

The designs shown in this brochure are for inspiration only and have not been submitted to specific tests. Actual designs may vary, depending on specific location, regulations and circumstances. Design and fixing systems may influence possible end results. Trespa Meteon is CE marked and fully complies with the EU standard. Always check if the desired design is in accordance with any national and/or local building regulations and specifications.
