and are not representative of characteristics of the Trespa products. Trespa's products and samples are produced within the specified color tolerances and the colors (of production batches) may differ, even if the same color is used. The viewing angle also influences the color perception. Metallic panels feature a surface whose color appears to change based on the direction from which it is viewed. The specified color stability and color specifications relate only to the decorative surface of the Trespa products, not to the core material and samples of the Trespa products. Trespa products are delivered ex-works with straight, sawn sides.

Customers and third parties must have a professional adviser inform them about (the suitability of) the Trespa products for all desired applications and about applicable laws and regulations. Trespa does not warrant the above.

The most recent version of the current delivery program and the Material Properties Datasheet can be found at [www.trespa.info](http://www.trespa.info). Only the information in the most recent and valid Material Properties Datasheet should be used to select and provide advice regarding Trespa products. Trespa reserves the right to change (the specifications for) its products without prior notice.

Modern architecture can reflect Nature. Trespa's new Wood Decors reflect the natural sources of design.

Architects and designers thrive on inspiration. Trespa's new Wood Decors inspire with new ideas and creative solutions.

## Silence of the wild

Motionless majesty, silent awe. African wild, ageless and exotic. Natural purity in the beautiful environment. Natural woods create timelessness.

## Talk of the town

Where nature, buildings and people are intertwined. A colorful avalanche of sound, surface and shape. Natural woods influence the environment.

## Sounds of the water

Endless echoes, weathering rock and sand. The surge of sea, the splash of waterfall, the pulse of rain. Natural woods have power, wet or dry.

## Crackle of the heat

Yellow sunrise, hot air, red sunset. Power transforming nature, growing and bursting with creation. Natural woods make buildings grow.

## Whispers of the wind

Subtle strokes on the senses. The building rustle of forces at work and play. Natural power to change landscapes. Natural woods make changes too.

# Character

## Every tree tells a story

Great architects create memorable buildings. Greater architecture has character. Nature is the greatest source of inspiration. Trespa offers a stunning Collection of 17 Wood Decors plus 6 Naturals. These combine the warmth and appearance of wood with the durability and quality of the Meteon panel.

Their Character has been inspired by an elevated understanding of Nature. They reflect man's awareness of the natural environment and reinforce the message of using sustainable materials. The collection complements Meteon, itself an enduring product from sustainable resources.

Think Nature. Think Wood. Think Trespa.
